

Ortho FLOSS®
comfortable and easy to use

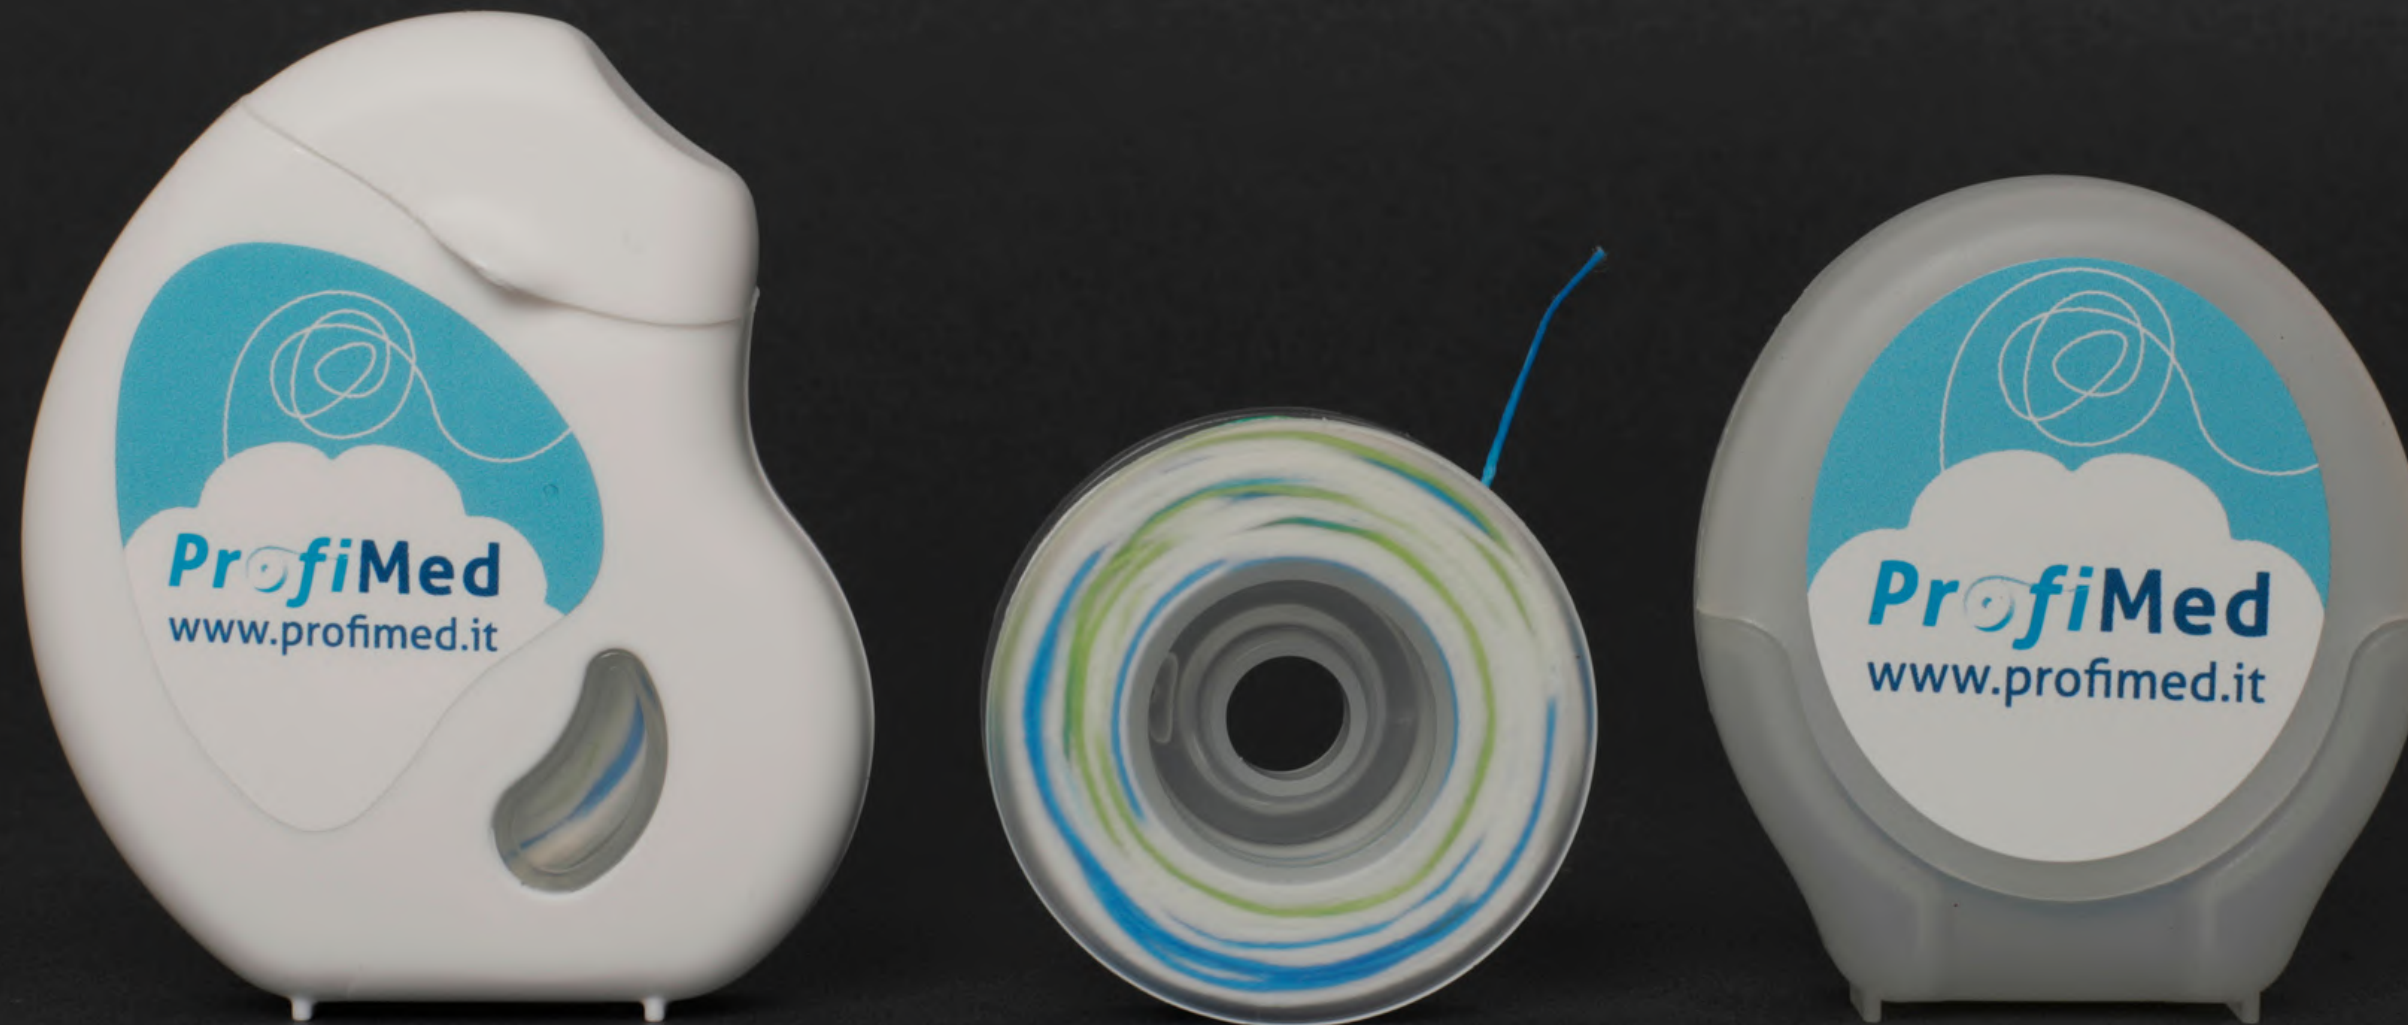

ProfiMed

MEET OUR NEW ORTHOFLOSS

What do you do when you already have a great product? Sit down and rest on your laurels? Well, no, that's not ProfiMed's way...

Ladies and Gentlemen, please welcome our new Orthofloss. Now cleaning around brackets, bridges and implants is a piece of cake!

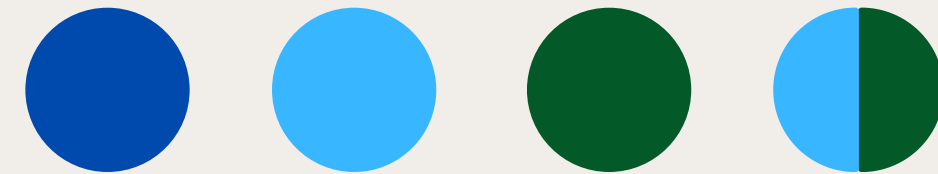

THE RAINBOW FLOSS

No more dull and boring floss... Our Orthofloss is just like an artist's color palette, see for yourself!

The threader needle: green, blue, light blue or a mix of the two!
Not a clue? We have got a marker in the middle for you!

THREAD COLORS AVAILABILITY:

And what about the spongy part? Do you like one color? Do you like two colors? Recycled material? Anything you like, we are at your service!

YARN COLORS AVAILABILITY:

*2 COMBINATIONS OF COLORS MAX.
RECYCLED ORTHOFLOSS AVAILABLE IN WHITE ONLY
OTHER COLORS UPON REQUEST

ProfiMed

SPICE UP THAT FLOSS!

Thanks to some technical improvements and great ideas, there are no more limits to the flavors we can add. Whether it is our classic **mint** or some fresh **strawberry**, we have got everything to make your taste buds rejoice.

And if that's not enough, add some further ingredients to the mix: healthy **vitamins**, enamel-friendly **fluoride**, teeth-strengthening **hydroxyapatite**...

ProfiMed

WELL, SOME TECHNICAL STUFF...

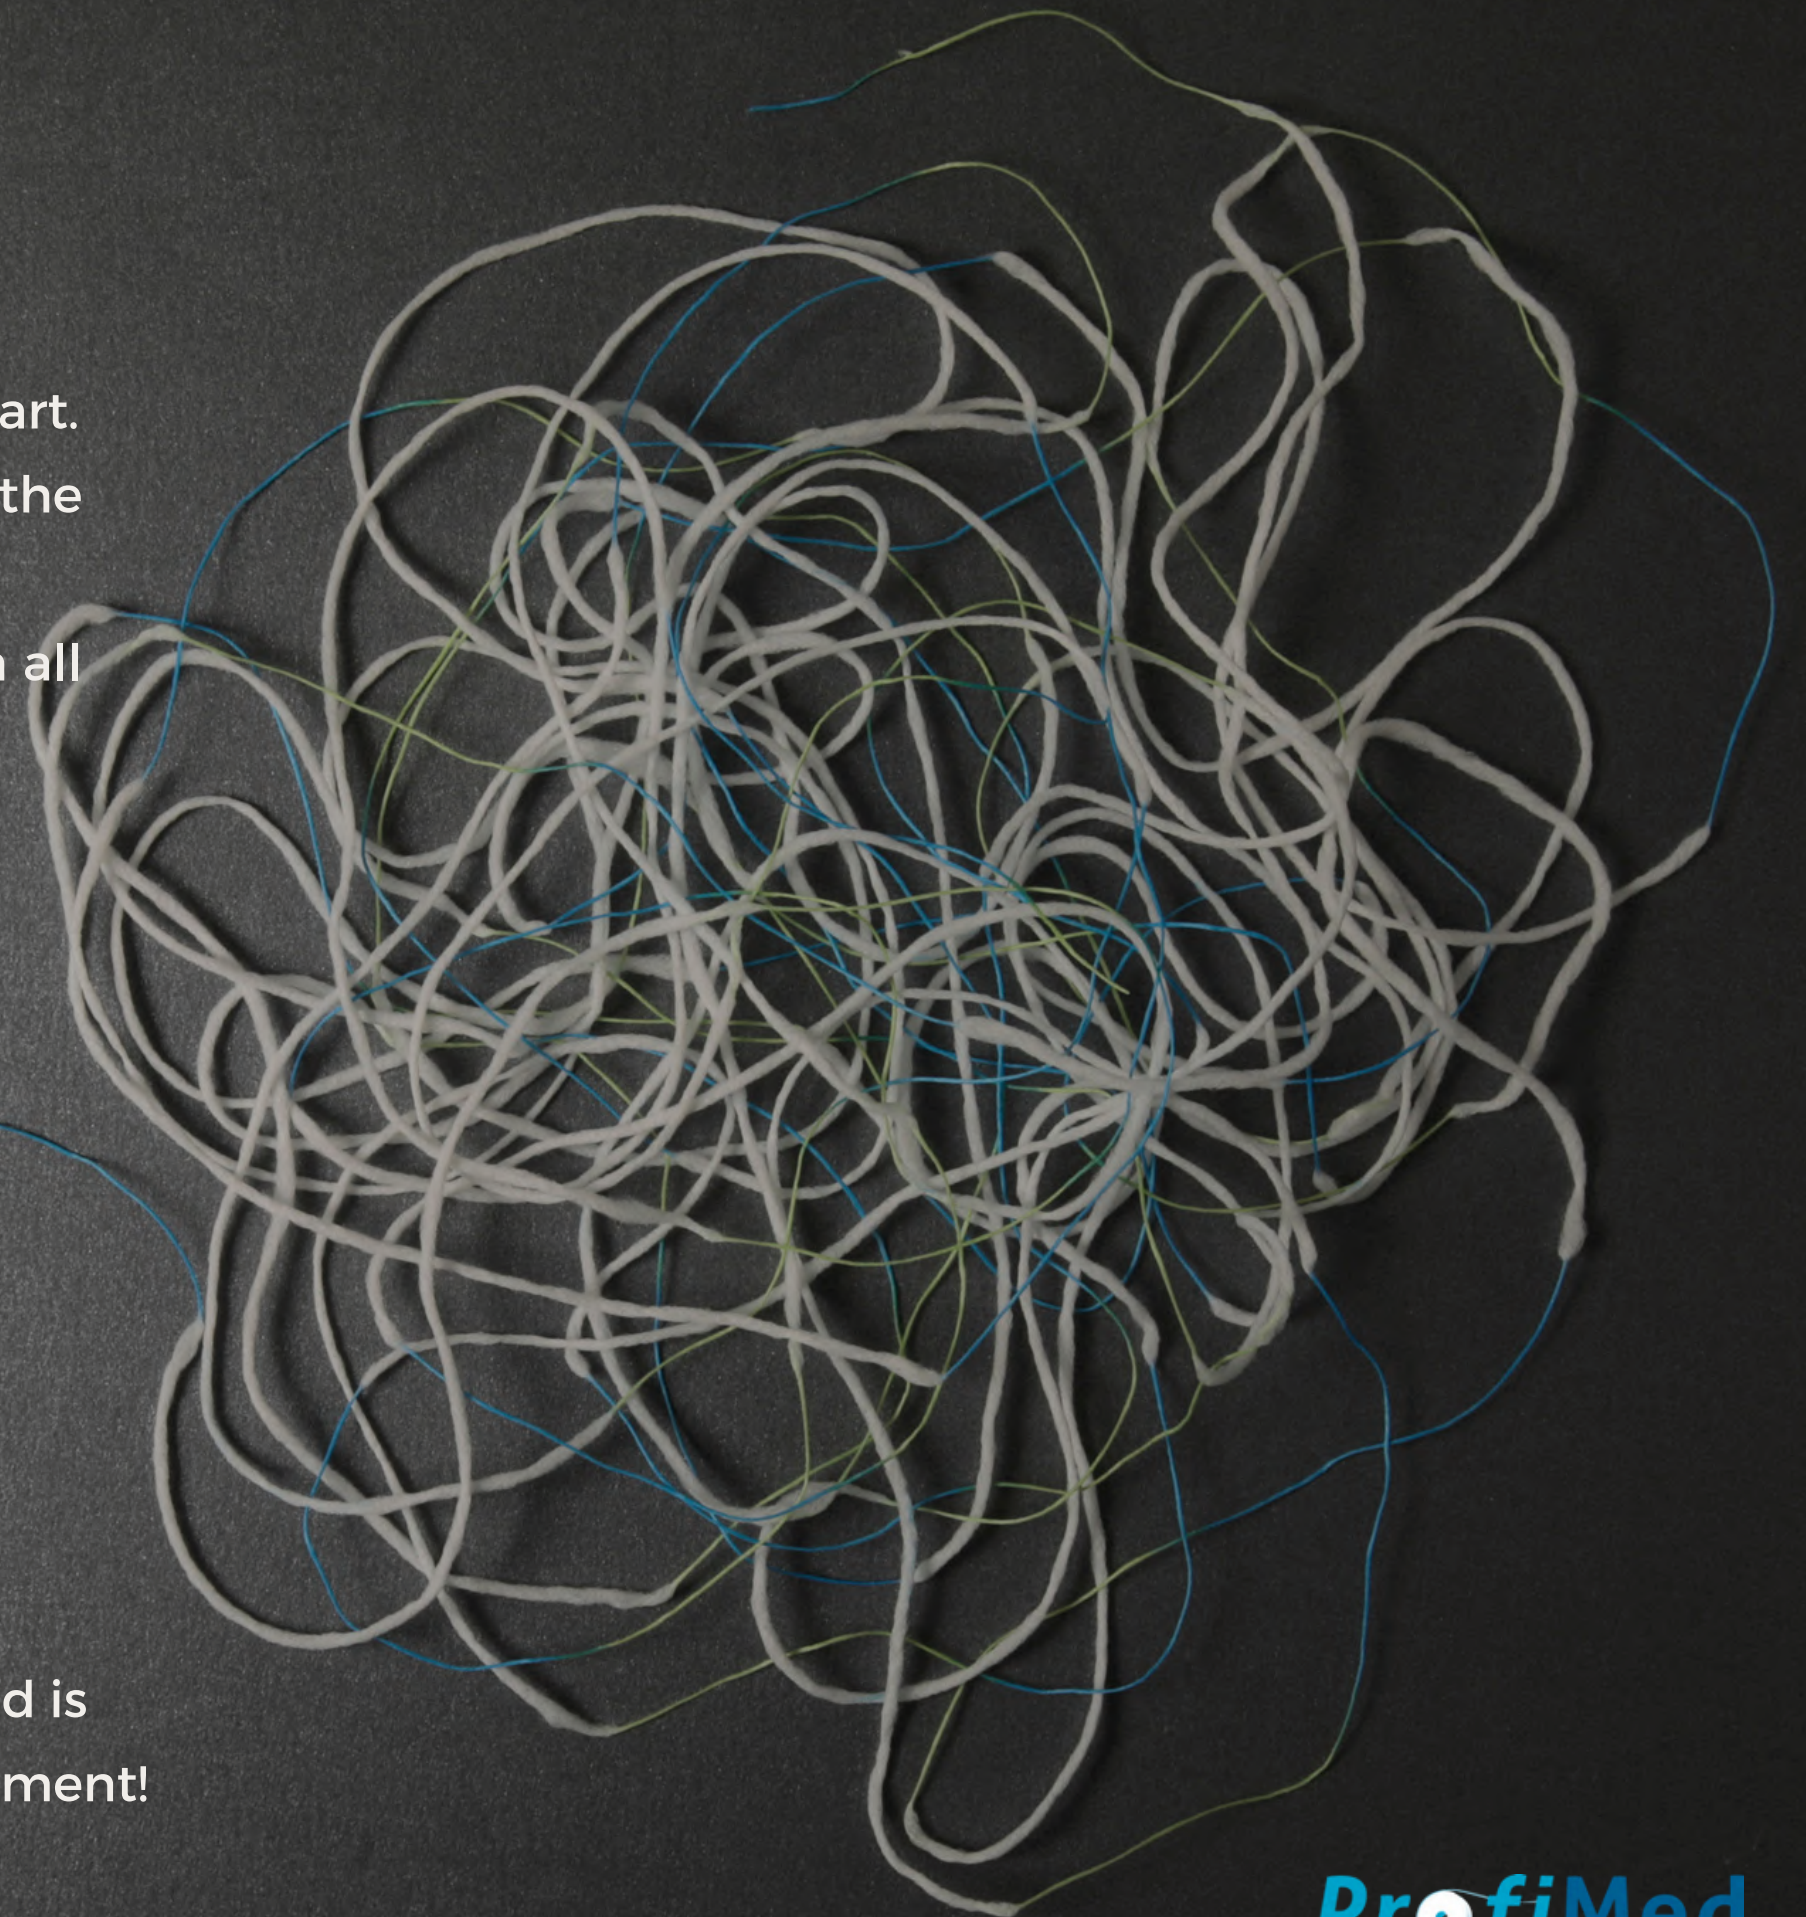

Now it is possible to customize even the thickness of the spongy part. In fact, our cutting-edge technology enables us to perfectly twist the filaments together to obtain a floss as large as you like.

1070, 1370, 1670 dtex... Finally, an orthodontic floss that will match all your needs!

What's dtex?

It's the weight in mg of 10 m of yarn/floss.

In simple words, the higher this value, the thicker your floss!

Not enough? Now the **threader** part has been improved as well and is **more rigid** for more comfortable handling. Thank you, R&D department!

FLOSS CONTAINERS THAT WILL INSPIRE YOU

Forget about those entangling loose strands: say hello to our comfortable and handy bobbins in nice-looking floss containers.

Choose between our drop-shaped and our egg-shaped floss containers.

Available in recycled material as well: let's give waste a new life!

And don't forget about our evergreen All-In-One blister, which gives you the possibility to include a spare bobbin!

ProfiMed

**Down with boredom, let your fantasy drive you!
